I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I don't support restricting the availability of individually compounded medications - For the past year, I have been using personalized hormone prescriptions and finally after "trying out many combinations" have found the correct dosage of estrogen & progesterin + testosterone and I feel wonderful. I live in Hawaii & depend on my specialized pharmacy on the mainland - Please don't limit the prescriptions they can send out.

Sincerely,
Carole Cote
